MADE FROM NATIVE ROOTS.

SAFE AND RELIABLE.

That the roots of many native plants, growing wild in our American forests, possess remarkable properties for the cure of human maladies is well proven. Even the untutored Indian had learned the curative value of some of these and taught the early settlers their uses. The Indian never liked work so he wanted his squaw to get well as soon as possible that she might do the work and let him hunt. Therefore, he dug "papoose root" for her, for that was their great remedy for female weaknesses. Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription," skillfully combined with other agents that make it more effective than any other medicine in curing all the various weaknesses and painful derangements peculiar to women.

Many afflicted women have been saved from the operating table and the surgeon's knife by the timely use of Doctor Pierce's Favorite Prescription. Tenderness over the lower pelvic region, with backache, spells of dizziness, faintness, bearing down pains or distress should not go unheeded. A course of "Favorite Prescription" will work marvelous benefit in all such cases, and generally effect a permanent cure if persisted in for a reasonable length of time. The "Favorite Prescription" is a harmless agent, being wholly prepared from native medicinal roots, without a drop of alcohol in its make up, whereas all other medicines, put up for sale through druggists for woman's peculiar ailments, contain large quantities of spirituous liquors, which are very harmful, especially to delicate women. "Favorite Prescription" contains neither alcohol nor harmful habit-forming drugs. All its ingredients are printed on each bottle wrapper. It is a powerful invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. For weak and sickly women, who are "worn-out," or debilitated, especially for women who work in store, office, or school-room, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health-restoring and strength-giving power.

For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, yet sure.

Trouble with Japan Anticipated.

The arrest of a Japanese officer for sketching fortifications at Manila has caused a sensation in the diplomatic world. It has been suspected for sometime that the military information division of the general staff of the Japanese army has had scouts at work secretly, not only in the Philippines, but in continental United States as well.

Not long ago the charge was made in a responsible quarter that many of the Japanese stewards and servants employed on American warships were officers of the Mikado's navy in disguise. The Navy Department has not been able to prove this in any particular instance, but it is known that instructions were sent to commanders of our naval vessels to be on their guard and to report any evidence they might be able to procure that their servants were in the employ of the Japanese government.

Much of the information upon which the Japanese prepared for their war with Russia was procured in this manner, and there is little question but what the recent anti-American agitation in Japan has caused the Tokio government to take steps of this character with reference to the United States, especially in the Philippines.

Should the matter be brought officially to the attention of the Japanese Foreign Office the action of the young officer in Manila would undoubtedly be disavowed and the statement made that he was acting solely in his personal capacity and not in the interests, or by the orders of his government.

The semi-official Strana of St. Petersburg, reviewing the aims of the visit of the Prussian foreign minister, Mr. Isnoisky, to Paris, attributes to him the purpose of cementing the Franco-Russian alliance and the growing Anglo-Russian approachment into a new triple alliance in the interests of the three powers concerned, which clash with those of Germany in Turkey, Persia and Japan. Russia, the paper adds, feels that common action would be advantageous, especially in Persia, where the Anglo-Russian agreement is meeting with German interference. In regard to Japan, the Strana recalls the Japanese dissatisfaction with the Portsmouth treaty, and says the Russian government is convinced that the reorganization and increase of the Japanese army and navy are directed toward a war of revenge. Great Britain, according to the semi official paper, shares the Russian alarm at Japan's intentions.

Bridegroom Arrested.

The honeymoon of Mr. and Mrs. Roy A. McKnight, an eloping couple from Murfreesboro, Tenn., who were married two weeks ago at Nashville, was rudely broken in Washington yesterday afternoon, when the bridegroom was arrested by Detective Horn and locked up charged with passing a worthless check for $50 on Charles J. Hunt, of Washington. Almost broken hearted, Mrs. McKnight, who is twenty-one years old and pretty, is a tearful guest at the home of Mr. Hunt, who preferred the charge against her husband. She has known Mr. Hunt for a number of years.

McKnight was arrested at the Metropolitan Hotel, where he and his bride have been stopping for the last ten days.

McKnight made the following statement last night:

"My wife and I eloped from Murfreesboro to Nashville two weeks ago and were married. We have been sweethearts for eleven years. Until I went to Murfreesboro about two weeks ago I hadn't seen her for three years. We immediately decided to get married. Although her parents had no objection to the match, we decided to elope and went to Nashville. My wife's maiden name was Miss Jennie Cox * * * My attorney has telephoned my father, who lives in Lynchburg, to come immediately to Washington. It is true that Mr. Hunt cashed a check for $50 for me. I thought that I had that amount in the Fourth National Bank of Nashville, but as the check was protested, my account must be overdrawn. My wife has known Mr. Hunt and the members of his family for a number of years. When I ran short of funds I asked him to cash a check, which he did. When my father arrives he will settle in full."

Postmaster Robbed.

G. W. Fouts, Postmaster at Riverton, Ia., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow; when my doctor prescribed Electric Bitters; which cured me and have kept me well for eleven years." Sure cure for Biliousness, Neuralgia, weakness and all Stomach, Liver, Kidney and Bladder derangements. A wonderful Tonic. At E. S. Leadbeater & Sons' drug store. 50 cents.

To Maintain the Open Shop.

The National Erectors' Association, comprising manufacturers and erectors of steel structures, voted in New York yesterday, to continue its contest for "open shops." The association adopted a resolution to support the Illinois Steel Company, of Chicago, which is building a plant at Gary, Ind., where a strike was declared, on Wednesday, by the Housesmiths' and Bridgemen's Union.

At the conclusion of the conference, which lasted three hours, it was said that overtures had been received from the international organizations of the Housesmiths' and Bridgemen's Union and from various local unions, requesting the holding of a conference, at which the present state of the trade might be discussed. It was decided to refuse to hold such a conference. An officer of the association, who acted as spokeman, said: "At present the business of steel erection is on the open shop basis practically throughout the country. The meeting decided unanimously to stand by the open shop. The association will back up the Illinois Steel Company, which is building the great plant at Gary, Ind., where a strike was declared on Wednesday."

Children Killed by Street Car.

Carrying her year-old baby brother in her arms, Jenny Donato, 13 years old, was struck by a Twelfth street car at Kimball street, Philadelphia, yesterday morning, and both she and the child were killed beneath the wheels.

The girl left her home to go on an errand for her mother, and carried the child along. She wore a heavy woolen hood, which prevented her from hearing the car's approach.

The fender hit the little girl below the knees, toppling her and the child into its net. They hung upon the edge of the net while Young, the motorman, was making frantic efforts to stop the car. By the time he did so the children had fallen under the front wheels, and were crushed to death.

A frantic crowd of Italians, who thickly inhabit the neighborhood, surrounded the car and threatened the motorman and conductor until the arrival of the police.

The parents of the children were told of the accident and rushed to Kimball street, where the mother fainted. Upon her recovery of consciousness three women had all they could do to keep her from scratching her face and pulling her hair out by the roots.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

SATURDAY EVENING, NOV. 3, 1906.

REFERENCE was made yesterday to the announcement sent out by Hon. John F. Rixey concerning his candidacy and urging all democrats to vote on Tuesday next notwithstanding the fact that he has a walk-over in the Eighth district. In Mr. Rixey's circular he gives a resume of the issues now before the country and presents unanswerable arguments to show that all Virginians should help to swell the democratic column. Mr. Rixey makes no reference to the work he had individually done in the interests of his constituents. This is on a line with his well-known modesty, and the fact that he has failed to recall them will not stop his friends from doing so. Many things which have tendered to enhance the interests of his district have been accomplished by his indefatigable labors, but it is not our purpose to recall each and every one. There is one matter, however, which interests a large number of people, especially those whose lots have been cast near the capital city. A movement was inaugurated during the last Congress to allow no wagons over a certain weight to pass over the bridges leading to Washington without being equipped with tires four inches wide. A bill providing for this was introduced in Congress and referred to the District of Columbia committee. The latter made a favorable report and the bill was about to crystalize into law, when Mr. Rixey, realizing the importance of such a statute, opposed the committee's report with all the earnestness he could command. After hard work he succeeded in thwarting the object of the patrons of the bill and prevented it from becoming a law. Had the bill been passed it would have practically kept every wagon from this district out of Washington and would have caused considerable trouble to people who trade with the capital city. Many were anxious while the matter was pending, and such should show their appreciation of a watchful representative by turning out en masse at the polls next Tuesdy.

THE NEW YORK campaign has so overshadowed other political events in public interest that the importance of the fall elections throughout the nation has not attracted the usual degree of attention. The congressional campaign, says the Baltimore News, has declined in interest and has assumed a merely perfunctory character since Mr. Bryan injected into national politics his new government ownership issue. Whatever may be its merits, public sentiment has yet to be educated with regard to them and meanwhile the people are not likely to take such a pig in-a poke, even on Mr. Bryan's say-so. If the tariff issue had been pushed as it might have been had this not come to the front, the campaign would have been more lively. But tariff-revision sentiment, while perceptibly repressed in its activity by the situation created by Mr. Bryan, has been sufficiently strong to affect campaign results. Republican managers concede a big decline from their present majority in the House, but it is now so great that they could lose many seats and yet have a safe working majority.

EXPERTS IN the Department of Agriculture have now reported that hens' eggs may contain dangerous disease germs, even if they are fresh laid They say it is possible for an egg to become infected with bacteria, either before it is laid or after, and that the porous shell offers no more resistance to this mico-organism than it does to that which causes an egg to spoil. They say that typhoid germs may attach themselves to the hen's feet or feathers and penetrate the shell before the egg is laid. The eggs of worms, as well as grain and seed, are found in eggs, having become lodged there while the white and shell were being added to the yolk in the egg gland of the fowl. If this germ theory progresses much farther the believers in it will not know what to eat.

CHIEF CHEMIST WILEY, of the Department of Agriculture, has organized another squad of men in his laboratory at Washington, who will eat regular food products containing saltpetre for the purpose of testing its effect upon the human system. This experiment will last about four weeks, during the first half of which the men will eat pure food, and during the last half of which they will receive a saltpetre diet. It is also stated that Dr. Wiley will start a series of experiments to determine the effect of alcoholic drinks on the human stomach and he is receiving offers from persons all over the country to become members of the alcoholic class. Free drinks for a month are very enticing, but the doctor's experiments heretofore have accomplished much good.

THERE PREVAILS at present an unprecedented corset crusade among the fashionable women of Paris, taking their cue from famous actresses. The society leaders have adopted the theory that the female figure is in reality more beautiful and graceful in its natural lines than with the constriction and distortion of the corset. Since the empire style has come in, the prevailing plan is to have the weight of the garments largely suspended from the shoulders.

THE steel rail mills of the country are said to have orders in hand for 1,500,000 tons to be delivered in 1907 and contracts for as many tons more are expected. What a harvest will the steel trust reap!

Washington, Nov. 3.

Acting Secretary of the Treasury Keep announced today that a shortage of $61,500 has been found in the accounts of the U. S sub-treasurer at St. Louis. "When this money was taken or by whom is a matter still under investigation by the Department of Justice," he stated, "and the department cannot discuss that phase of the matter at this time." This announcement followed a conference this morning between Mr. Keep and Mr. Bantz, deputy assistant U. S. treasurer, who has just returned with his corps of experts from an examination of the books, vouchers and money in the sub-treasury. Mr. Bantz has already begun the preparation of his report, which Secretary Keep expects to have in his possession by the last of next week.

There will be no international complication between this country and Japan as a result of the arrest in Manila, of a young Japanese officer who had made sketches of the fortifications there. Unlike the continental powers of Europe the United States has no law making it a penal offense for a person to make drawings of its fortifications and, while diplomatic representations will be made to Japan and the Japanese officer deported the matter will be allowed to drop without its reaching a serious stage. It was explained at the War Department today that there is no such thing as a spy in time of peace. While few doubt that the Japanese officer was in the Philippines sketching fortifications under orders from his government, it is quite certain that Japan will deny all knowledge of his doings and will express the most profound regret that one of her officers should "without warrant from his government" transgress in such an unfriendly way by attempting to obtain information as to the defense of the Philippines. Explanations of this character under such circumstances are customary and even the United States in the past has been called upon to make them when its officers have been detected doing just this thing.

"While we are disappointed that Commander Peary failed to reach the North Pole, we are all proud of his remarkable achievement in attaining the farthest north. The whole United States as well as the American navy should take pride that an American officer has reached a position farther north than any of the many fearless explorers." Rear Admiral Endicott, chief of the naval corps, this morning expressed these sentiments with regard to the feat of Peary in getting about 32 miles nearer the North Pole than any explorer of the past. The Navy Department has as yet heard nothing from Commander Peary except what was contained in the morning papers. No doubt is felt, however, but than the explorer is on his homeward way and it is calculated that he will reach New York in about ten or twelve days. He left on his latest venture for the North Pole in July of 1905.

During President Roosevelt's absence in Virginia, where he has gone for a few days rest and recreation, Secretary Loeb is rushing work at the executive offices in order to have everything in readiness for the exective's next trip This is to be to Oyster Bay where he will cast his vote on election day for Mr. Hughes The President will leave Washington for New York Monday at midnight and will reach his home town shortly after 9 o'clock next morning The President will not remain in Oyster Bay more than two hours at the longest After returning from Oyster Bay the President will spend one day in Washington before starting for Panama. He is due to begin his journey to the isthmus Thursday afternoon, leaving the navy yard on the Mayflower for Chesapeake Bay. At Wolf Trap Light the President and his party will be transferred to the battleship Louisiana which will convey them to and from the isthmus. On the journey to Panama the President will be accompanied by Mrs. Roosevelt, Surgeon General Rixey and others.

The Civil Service Commission today began an investigation of the charges preferred by Chairman Griggs of the democratic congressional committee that Geo. M. Bowers, fish commissioner, has been "perniciously active" in West Virginia politics by attempting to levy campaign contributions on federal office holders. Commissioner Green of the Civil Service board left for Martinsburg, W. Va., this morning and there he will investigate the charge that Mr. Bowers attempted to collect $2,000 from Postmaster Alexander Clohan. The commission will rush the investigation with the idea of rendering a decision on Monday.

C. D. McKnight, father of the boy bridegroom whose honeymoon after an elopement from Murfreesboro, Tenn., was so rudely broken yesterday when the young man was arrested for passing a worthless check, came here today and took his son back with him to Virginia. He will be placed in an asylum.

"We will control the next House of Representatives by not less than twenty-five majority," is the terse prediction of Chairman Grigg, of the democratic congressional committee, on the eve of the election. It is his official "guess." Just where the gains will come from he does not and will not say. The statement, typewritten in capital letters, is his official prognostication.

The Navy Department is preparing to follow the War Department in adopting the system of finger print indentification. Orders to this effect will be issued shortly. About fifty members of the hospital corps of the army have perfected themselves in the method and will be sent to posts in this country and in the Philippines, where they will teach the system to others.

An alarm was sounded at 7:30 o'clock this morning for a fire in the building No. 1329 F street, northwest, the first floor of which is occupied by the Vogue, a gents' furnishing store and by Halle & Stieglitz, stock brokers. The fire started in the basement and did not get above the first floor. The Vogue was damaged to the extent of $3,000 and Halle & Stieglitz place their loss at $200. The loss to the building was about $3.50.

Gearge Washington will line up against the strong team of Randolph-Macon College this afternoon on Van Ness field at 3:30. This will be the only football game played here today.

The Pennsylvania Railroad will grant a 10 per cent increase in wages to 200,000 employes January 1.

Marquis Ito is to be replaced as resident general for Japan in Korea by Count Katsura, former premier.

Rear Admiral Rixey reports that tuberculosis is making inroads in the navy, there being 6.1 cases for every 1,000 men.

Augustus J. Hartje, the Pittsburg millionaire who sued his wife for divorce has been asked to resign from the Duquesne Club.

Dispatches from New York State say that the Root speech may prove a boomerang to Hughes, but that the Croker cablegram was a severe blow to Hearst.

Chairman Griggs, of the democratic committee, yesterday made a charge against George M. Bowers of soliciting $2,000 for political purposes from the postmaster at Martinsburg, W. Va.

Maine reports so far in this hunting season sixteen deaths of gunners. The game receipts are far below those of last year. Up to Saturday last 822 deer, 55 moose and 10 bears had been brought in, as against 1,376 deer, 70 moose and 19 bears for the same period last year. The dry weather, which has made it difficult to stalk the game, and the number of leaves on the trees, obscuring vision, are said to be responsible for the falling off in receipts, although game is reported to be abundant.

Virginia News.

At the close of services at Trinity Episcopal Church of Manassas on Sunday last, Rev. Dr. McGill tendered his resignation.

Virginians had a good day at Pimlico yesterday afternoon, three horses from the Old Dominion getting brackets. They were Robert Neville's Welbourne and Mr. McCann, and R. Bradley's Eminola.

Dr. V. O. Caruthers, of King George county, has entered suit in the Circuit Court of that county against the King George board of supervisors, charging that they are not spending the money appropriated for improvements to the public road, as required by law.

Governor Swanson has written a letter to the Secretary of the Navy asking that the battleship Virginia be ordered to Newport News for the purpose of receiving the silver service given by the State to that ship. The Governor said that Newport News had asked this, that the ship was built there and he believed that city was entitled to the ceremonies.

The Richmond council committee on light has renewed its contract with the Virginia Passenger and Power Company, by its receivers, for supplying the city with 800 arc lights of 1,200 candle power each for one year from July 1, 1907, at $54.75 per light per year, and with the privilege of renewing the contract for another year at the same rate.

The movement recently started by the Norfolk county truck growers for the enforcement of the Virginia vagrancy laws in that section with a view to relieving the great scarcity of labor in the eastern Virginia trucking belt is resulting in many arrests, and many idlers caught loitering about country roads, stores and saloons in the city and suburbs have been sent to jail.

Drug Combine Illegal.

The Maryland Court of Appeals held a consultation Thursday night and handed down a number of important opinions yesterday.

Chief Judge McSherry delivered the opinion in the appeal of Klingels Pharmacy, of Baltimore city, against Sharpe & Dohme, the Calvert Drug Company and the Baltimore Retail Drug Association. The judgment of the Superior Court of Baltimore city is reversed.

The case is one of great importance, as it concerns the lawfulness of a combination of retail and wholesale dealers to establish a maximum price for articles of merchandise. In the opinion delivered yesterday the Chief Justice not only holds that such a combination is unlawful, but "it is a criminal conspiracy at the common law, and is punishable by fine and imprisonment."

Granted a Divorce.

Judge Niles in Baltimore yesterday signed a decree granting August Gutman an absolute divorce from Katie L. Gutman, a wife who, it was revealed by the testimony, literally discharged him from his matrimonial job because he dared protest against cooking his meals and running the house while she was basking in the sunshine and sea breeze of Long Island. Gutman's testimony showed that he was almost, if not fully, qualified to be the husband of a "twentieth-century" wife. But he made the mistake of kicking when neglected for a time which he considered too long. Scripture says that it is not well for man to be alone, so when it came to three months at a single stretch he, heartless man, grumbled. The result was, she locked him out and told him to get along his way and she would travel hers.

Commodore Peary Goes Farthest North.

The United States now holds the record of "farthest north"—87° 6'. This feat was accomplished by Commander Robert E Peary, of the United States navy.

The intrepid Arctic explorer failed to reach the North Pole, as he had confidently hoped to do with his specially constructed vessel, the Roosevelt, but he penetrated nearer to the Pole that the Duke of Abruzzi's expedition, which had held the Arctic record 86° 34'.

What Commonder Peary did and his experiences during the past year in the frozen north are rather briefly, but certainly vividly, summarized in a communication received last night by Herbert L Bridgeman, secretary of the Peary Arctic Club.

Today's Telegraphic News

The Elections.

Washington, D. C. Nov. 3.—President Roosevelt is running today in many states in the Union. Although his name will not appear on the ballots, his record principles and his future are being used to bring the people to the polls in behalf of the committee. The President's earnestness in the present struggle, although it is an "off year," is shown by the fact that he has sent the members of his cabinet of all parts of the way country. So far away as Idaho, Secretary Taft has gone to urge the election of Governor Gooding; Secretary Wilson has spoken in Iowa; Secretary Bonapart has abused the democrats in Maryland, Attorney General Moody has boosted the administration in Pennsylvania; Secretary Shaw has talked almost continuously in the Middle West; Secretary Root, the heaviest of the President's oratorical guns, fired a single shot at Utica, N. Y., that will probably reverberate until next Tuesday night.

The President appeared in Pennsylvania and though his mission was to speak at the Capitol dedication, and was announced to have no political significance whatever, the "machine," controlled by Senator Penrose, seized the opportunity thus offered to make it appear that the President came to help it out.

It is in New York, however, that the President is most interested. He decided upon the ousting of Odell, the retirement of Higgins, the selection of Parsons and the nomination of Hughes all in the early part of the summer, and his programme was jammed through almost before the men who have made politics their life study woke up to the fact that there is a mighty congressional struggle on all over the country.

Even such optimistis as Chairman Sherman and Secretary Loudenslager of the republican congressional committee expect that the House majority will be cut down, but they confidently figure on at least forty votes over the minority.

New York, Nov. 3.—Election chances in the Empire State favor Charles E Hughes, the republican nominee. This is the best prediction that can be made today, but it is by no means certain Hearst is a quantity that must be reckoned with, but on the face of things Hughes has the best of it. One thing seems certain, that political lines will be torn asunder as never before. In this lies much of the uncertainty.

It cannot be denied that the democratic organization is badly split, owing largely to the acceptance of Hearst after he had been placed in the field as an independent candidate. But he has elements of personal popularity which may offset this. His position as an anti-trust and anti-boss candidate will undoubtedly win him many votes of republicans who are not satisfied with the present trend of affairs.

President Roosevelt's eleventh hour action in declaring, through Secretary of State Root, in his speech at Utica Thursday night, that Hearst had incited the assassination of President McKinley undoubtedly was a hard blow at Hearst. This showed in the jump in the betting odds yesterday to 5 to 1 for Hughes. But was it a death blow? The answer will not be given until Tuesday

Attacked on both flanks the Hearst fire has been diverted from Charles E Hughes, the republican nominee for governor, to Secretary of State Root and to former Boss Croker, of Tammany Hall. The closing battle of the last three days finds all the ammunition of the Hearst forces being used to repel the onslaught of Root and Croker. Hughes is practically forgotten in the final fight in the ditches.

Tammany Hall is today in a state of unsettlement. The old guard are rallying around James J. Martin, who represents Mr. Croker, and while they are saying nothing publicly, it is said orders are being given to knife the ticket. The district leaders loyal to Murphy swear openly that Croker taught them regularity and they will see that their districts stick to the ticket from top to bottom. The defeat of Hearst means that leader Murphy will be unhorsed and Tammany reorganized. Mayor McClellan and the city administration is using every influence to encompass Hearst's defeat which will mean the annihilation of Murphy, the arch enemy of McClellan. Friends of Richard Croker do not expect him to again take the leadership but he will give his advice on Tammany's reorganization when he returns here in December. Hearst today and last night assailed Secretary Root and Mr. Croker, declaring that they were enemies of the people He said that Root had dragged his high position into a partisan campaign and into a personal attack in a local situation in order to serve his corporation masters. Croker was fighting him, he said, because he had driven Mayor Van Wyck out of office for his connections with the ice trust.

Chicago, Nov. 3.—Forcasts of Tuesdays election in Illinois are being made by the political leaders. Even the most sanguine democrats concede a plurality to the republicans. The socialist party, is believed to be about to discard its swaddling clothes. The independence league, created to support the ideas of Mr. Hearst in Cook county, will doubtless poll a heavy local vote. The socialist labor, prohibition, progressive alliance and independent tickets are regarded as inconsequential factors.

Harrisburg, Pa., Nov. 3.—The regular republican managers have been greatly encouraged because of the aid extended in their State campaign by the national administration, and as a consequence they confidently predict the election of Stuart to the governorship. The defection of the anti-machine element of the party, which, under the name of the Lincoln republicans, put up with the democrats a fusion ticket, headed by Emery, will undoubtedly cut the regular republican majority way down, and there is, of course, a chance that the fusionists may pull through.

The democrats claim as certain an increase of at least six Congressmen, and they would not be surprised if there would be ten.

In Philadelphia the situation has become so chaotic by reason of a complication of local issues that even the wisest of the politicians is up in the clouds Each side claims it will come out with anywhere from 25,000 to 40,000 spare.

Boston, Nov. 3.—The Massachusetts vote will be close on Tuesday, but the chances favor the re-election of Governor Guild, in the opinion of the unbiassed.

Cleveland, O., Nov. 3.—Complete apathy is the dominant characteristic of the Ohio campaign. No one knows who will be elected, and few care. Normally Ohio is republican, but in this, an off year, it would not be surprising of the democratic candidate for secretary of State, the head of the ticket, should be elected.

Madison, Wis., Nov. 3.—A review of the political situation in Wisconsin indicates that the republicans will elect their full State ticket and at least nine of the eleven Congressmen.

Boise, Idaho, Nov. 3.—The campaign in Idaho practically closed today, with both sides claiming the State by a small majority. Two years ago the republicans had majorities averaging 1,700. The democrats claim they have overcome this by waging a campaign on Mormon nominations made by the church and charges that republicans resort to machine methods in controlling the State's affairs. It is conceded that the democrats have had the advantage so far as argument is concerned, thereby making gains, but republicans claim their poll shows majorities of from five to ten thousand.

Won Nearly $46,000.

New York, Nov. 3.—The bookmakers at the Jamaica track today have good cause to regret the presence there yesterday of "Bet-a-Million" John W. Gates. It was his first visit to a race course in many days, but he showed clearly that he was still in touch with the form of horses by picking four winners which netted him nearly $46,000. He won $15,000 on Luretta, his first winning horse—she won the third race—bet $5,000 on Tommy Waddell against $15,000, and got an average price of 3 to 1 against Cora Price for $5,000 more. On these three races he won $45,000. He was seemingly content with his day's speculation, for when the seventh race came along he was so undecided which horse to back that he finally placed a piking bet of $400 on Plaud. When the odds against the last winner were 11 to 5, he won $880, a total of $45,880 on the four horses.

Wireless Telegraphy Agreement.

Berlin, Nov. 3.—All the powers represented in the international congress which assembled here to discuss the subject of wireless telegraphy, except Montenegro, today signed the agreement reached by the conference regulating the exchange of wireless messages. Both Italy and Great Britain, however, signed with the reservations which they claim were necessitated by their contracts with the Marconi Company. While the convention provides, in principle, for the intercommunication between all companies, regardless of the system, they have, it is claimed by the American delegations the reservations made by England and Italy will virtually nullify the effects of the agreement as they only bind themselves to abide by the rule laid down where it is advantageous for them to do so.

Arrest of Alleged Forger.

New York, Nov. 3.—Searched for in every state along the Atlantic coast, Samuel Maudle, Sparta, Ga., was arrested today in a brokerage office of Carpenter Baggot & Co. where he had opened an account with several thousand of dollars which he is charged with obtaining by forgery in Sparta. The sheriff of Hancock county telegraphed here that Maudle was wanted for forgery of a warehouse receipt. Maudle had stored bale of cotton in a Sparta warehouse and raised the receipt from one bale to 201 bales. He left Sparta and finally came to this city where he sold the cotton on his presentation of the receipt to Carpenter Baggott & Co. He received $9,600 for the cotton. Maudle opened an account with the firm and began to play the cotton market. He had $6,600 on account when arrested. Maudle is 29 years old.

Killed in a Fight.

El Paso, Tex., Nov. 3.—Negro soldiers last night started a fight in a saloon outside the reservation One man was killed and two seriously wounded. Other troops from the fort have been dispatched to arrest the rioters and further trouble is feared. The negroes belong to the 25th Infantry, members of which, while stationed at Fort Brown, made a raid on Brownsville, shot into homes and business houses, and killed one white man and wounded another. The affair aroused so much indignation that the War Department transferred the negro troops to Fort Bliss. The man killed is Private Matthews. Private Lewis and Alexander Johnson, a saloon keeper were wounded. A card game is said to have caused the fight.

Ten Thousand Dollars Duty.

New York, Nov. 3.—Ten thousand dollars duty was paid yesterday by J. Pierpont Morgan, when, through an agent, he cleared through the custom house two volumes of Robert Burns's poems and letters, said to be valued at more than $50,000. For several years agents in the employ of Mr. Morgan have been traveling about Europe collecting these manuscripts. Each volume has about four hundred pages and the collection embodied therein is almost complete, containing the original manuscripts of almost all the Burns poems and scores of his letters.

Japanese to Insist on Treaty Rights.

San Francisco, Nov. 3.—Significant is the action of the Japanese in this city when they dismissed the suit instituted some time ago to force the city to admit a Japanese student to the schools of San Francisco. It was stated by attorneys that from now on the Japanese will make no effort to oppose exclusion through court proceedings, but they will stand firmly on their treaty rights and contend that the Washington government must put children back into schools from which they have been barred by the board of education.

Believes He will be Acquitted.

New York Nov. 3.—That the Rev. Algernon J Crapsey, rector of St. Andrews Church, Rochester, N. Y., will be acquitted of the charge of heresy by the court of review of the second department to which he appealed from the decision of the diocesan court which found him guilty, was freely predicted today following the meeting of the Board of Review in this city yesterday. The decision will be rendered on the 14th instant.

Wages to be Increased.

Philadelphia, Nov. 3.—The wages of all employes of the Pennsylvania Railroad system on lines east and west of Pittsburg are to be increased. Nearly 150,000 men will be affected. It is said the increase will be effective on December 1st. The management is considering a proposition to grant an increase of ten per cent to all employes whose salary per month is less than $500. The monthly pay roll of the system averages about $10,000,000, and an increase would mean the additional payment of $1,000,000. The total number of employes on the combined systems affected is 132,336.

Philadelphia, Nov. 3.—The Reading Railway today announced an increase of wages of 10 per cent. on all employes whose salaries are less than $200 per month. The order is effective November 1.

Rammed Battleship.

Norfolk, Va., Nov. 3.—The Battleship Virginia, while passing up to the Norfolk navy yard today, was rammed on the starboard quarter by the Old Dominion steamship Monroe from New York. The vessels came together with considerable force, resulting in the scarring of the battleship and displacing of some guns and fixtures. The stem and several bow plates of the Monroe were stove in.

Both vessels were steaming slowly up the river, the Virginia leading The battleship suddenly came almost to a standstill and the Monroe could not be stopped in time to avoid the collission. Nothing official has been given out from either ship regarding the collission, but from the action of the Virginia before the collision it seems certain that that vessel's machinery became disarranged or else signals to the engine room were incorrectly given or misunderstood.

Anxiety Concerning Automobilist.

Wilkesbarre, Pa., Nov. 3.—J. S. Harvey, of Scranton, is missing today, and it is feared that he may have lost his life in an automobile accident. His automobile was found partly submerged in the Susquehanna river at the foot of a high enbankment, and it is believed that it plunged over during the night, carrying Harvey with it. The throttle was wide open when the machine was found.

A later dispatch says that the man drowned in the automobile plunge was Frank Williams, 1221 Capouse avenue, Scranton, who had Harvey's automobile

Fight with Negro Bandits.

Havana, Nov. 3.—A fight occurred last night at Pietro between a band of rurales and a gang of negro bandits, who have been operating boldly in that neighborhood for some time. Three of the brigands were wounded in the conflict.

A conference was held today between Gov. Magoon, General Bell, and Alejandro Rodriguez, commander of the rural guards, to take steps to end the brigandage. As a result orders were given for the redistribution of the rural guards so as to make it possible for them to operate with greater effectiveness.

Wedding.

London, Nov. 3.—Miss Mary Bentinck, daughter of Mrs. George Bentinck, and a niece of Mrs. Ogden Mills, was married today to John Ford, son of the late Sir Clare Ford. Many fashionable Londoners attended the ceremony and the young couple received a great many valuable wedding presents, including a diamond necklace which was presented to the bride by King Edward. Mrs. Maturin Livingstone, of New York, grandmother of the bride, has settled an annual income of $10,000 on Mrs. Ford, as her wedding gift.

Rich Discovery of Silver.

International Falls, Minn., Oct. 3.—A discovery of silver was made yesterday in the Rainy river district, near here, which rivals any other find in recent years Manager Hansen, of the West End mine, long abandoned, found a nugget weighing ninety pounds which assays more than $600 and has other samples from the third level of the disused mine which assay 19,000 ounces of silver to the ton.

Church Destroyed by Fire.

Boston, Nov. 3.—The church and parish house of the First Unitarian parish were almost destroyed by fire today. Fire Lieutenant Seldon Allen was probably fatally injured by falling walls and Hoseman James McDonald received severe injuries. The damage to the structures is estimated at $100,000. The church was a magnificent stone structure, one of the finest in the city.

Denies that He Murdered the Woman.

Chicago, Nov. 3.—Leonard Leopoe, accused slayer of Margaret Leslie, arrived in Chicago today. He denies any knowledge whatever of the revolting murder committed in the palace Hotel "I do not accuse Howard Nicholas of the crime, for I know nothing about it," he said. "I admit my part in selling the diamonds, but as to the actual crime I know nothing of it."

Senator Clark Not a Candidate.

Butte, Mont., Nov. 3.—Senator Clark is not "now a candidate for re-election," so he declared in an interview denying that he told a reporter in Chicago that he would enter the race. F. Augustus Heinze may have the field all to himself so far as Clark is concerned at present, but Clark's friends say the fight has not commenced.

Will to Stand.

Boston, Nov., 3.—Austin G. Metzler, a lawyer of this city, who was left $6,000 in the will of the late Edward H Dunn, testified in probate court yesterday during a hearing on contest brought by nephews and nieces that the bequest was the result of his kindness in offering Mr. Dunn the shelter of his umbrella during a shower several years ago. Mr. Dunn, who was a very wealthy Methodist, left the bulk of his estate to the church and the probate judge allowed the will to stand.

Burned to Death.

Altoona, Pa., Nov. 3.—Henry Cleman, aged 80, was cremated last night in his farm house two miles from Wilmore. While his wife was away, he built a fire in the kitchen stove and fell asleep. A coal dropped on the floor and the flames which resulted burned the house.

New York Stock Market.

New York, Nov. 3.—The stock market all through the first hour was weak. The immediate and most active cause for the weakness was that the market had been overbought at the high levels yesterday, many of the traders taking the stocks in the expectation of selling them at a profit today, and not finding a profit hurried to close the contracts and take as small a loss as possible.

Strike at an End.

The strike of Southern Railway machinists is at an end and the men will resume work Monday.

The machinists are to receive the compromise wages offered by General Manager Spencer before the strike was declared. The differences between this scale and the demand of the strikers will be submittted to a board composed of members named by the railroad management and the machinists.

This announcement was made yesterday as a result of an agreement reached at a conference of the officers of the Southern Railway, the National Civic Federation, the International Associationof Machinists and a committee of machinists representing the striking railroad employes.

The following official statement has been given out by the general manager of the Southern Railway:

"An amicable adjustment has been reached with the committee of machinists, under which the strike will be declared off, and the men now on strike will return to their old positions on Monday morning, November 5, without prejudice on account of strike.

"The men who remained with the company are to continue at work. Those who have been employed since the strike will be retired from the shops before Monday morning, but without prejudice as to their continued employment by the company in other places, or as to their future employment in the shops if needed. Special instructions will follow as to how to proceed with these new employees. The wages offered by the company to the machinists prior to the strike are to apply from November 5, and the company's proposition to arbitrate the difference between that scale and the demand of uniform advance of 2 cents per hour for machinists and 1 cent per hour for apprentices, has been accepted, and the arbitration will be arranged for under the plan and bases suggested by the company as promptly as practicable This adjustment took place at a conference in New York, November 2, between Seth Low, chairman conciliation committee; R. M Easley, chairman executive council; V Everit Macy, and S B Donnelly, members National Civic Federation; the officers of the Southern Railway Company, the president of the International Association of Machinists, and the committee of Southern Railway machinists."

The news of the agreement entered into by the representatives of the railway company and those selected by the machinists was received at this office yesterday evening shortly after the Gazette had been put to press. The announcement was bulletined in front of the office and read by all passersby. The news was received with considerable satisfaction by people throughout the city.

The officials of the company in interviews this morning were confident that the men formerly employed at the shops in this city would report for work Monday morning.

Most of the men who were inclined to talk were equally as confident they would return to their former occupations Monday. A few, however, were pessimistic and said they had received no report from Mr. Hulfish, their representative, and that the matter was still in an uncertain state. It was suggested that the terms of the compromise were virtually those that have previously been rejected by the union—that the machinists return to work at the advance offered by Manager Spencer, and that the matter of the additional amount demanded by the men be submitted to arbitration. It is further said that the various unions on the Southern system may refuse to abide by the decision of the arbitrators. Others, however, think such a procedure unlikely, and that the strike is practically at end. It is realized by the machinists that some members of the unions are radical in their views, but they are believed to form a small percentage, and that they will later revise their opinions.

The company is still engaged in the construction of the overhead bridge on Henry street. The supports, which have been erected on the company's property have been in position for several days, and the work on the bridge proper is now in progress on the lot formerly occupied by the railroad reading room.

Solemn Vesper Services.

As has been stated in the Gazette, solemn vesper services will be held in St. Mary's Church tomorrow evening under the auspices of Fitzgerald Council, No. 459, Knights of Columbus. The celebrant will be Rev. Father Albert Negabanquet, a Pottowatomie Indian, from Oklahoma, who is a student at the Apostolic Mission House at Brookland, D. C. The sermon will be delivered by Rev. Alexander P. Doyle, C. S. P., superior of the Apostolic Mission House. His subject will be "Christopher Colnmbus." The vespers will be sung by a double sextet composed of seminarians from the Holy Cross College, Brookland

The service promises to be one of the most impressive vesper services ever sung in Alexandria. The programme of the vespers will be as follows: Deus Adiutorium, John A. Schehl; Dixit Dominus, Nisi Dominus, Laetatus sum, Lauda Jerusalem; Gregorian chant; Ave Maria Stella, C. Ett; Salve Regina, Gregorian; Ave Maria, Verdenssen; O Salutaris, Gereem; Tantum Ergo, Adabert Lenk.

Arthur Johns, of Washington, former rector of the Episcopal Church at Upperville. The active pallbearers were H. Rozier Dulany, Dr. Guy Fairfax Whiting, Meville Whiting, of Washington; Dr. R. Paine, a somewhat quiet fellow; Miss Alice Kerrys, an original woman, and the biograph in latest moving pictures.

Will Pay for Their Joke.

A resident of Lee street, between Wilkes and Gibbon, discovered last Thursday morning that practical jokers on the preceding night (Hallowe'en) had removed the blinds from his front door. After a thorough search of the neighborhood and satisfying himself that they had either been destroyed or stolen from the place where they had been placed by perpetrators, he ascertained the names of the latter and informed them should they fail to procure another pair of blinds they would be prosecuted. The jokers (three young men) assured the householder that they would see that another pair was placed at his door. The blinds will cost between six and seven dollars.

Fight in a Saloon.

Albert Smith, colored, was arrested yesterday evening by Officers Knight and Lyles charged with assaulting George Kelly in a saloon on south Alfred street. The case came up in the Police Court this morning when from the evidence of the complainant it appeared that a game of crap was in progress in the saloon and when Kelly attempted to bring it to a close Smith, one of the participants, held Kelly when a negro named Wood, whom the officers failed to find, struck Kelley with a bottle. Smith in his defense said that Kelly and Wood were fighting and he was endeavoring to act the part of a peacemaker. The accused was fined $10 by Justice Caton.

Changed Her Destination.

The four-masted schooner Malcolm B. Seavey, which put into Charleston harbor several days ago to repair damages received in the West Indian hurricane of about ten days ago, has completed the work and Tuesday she sailed from Charleston, bound for Baltimore with a cargo of phosphate rock. The schooner sailed at first from a Florida port for Alexandria consigned to the Alexandria Fertilizer and Chemical Company but after the accident she was directed to proceed to Baltimore. When the Seavey put into Charleston she was leaking badly from the strain she had been subjected to by the heavy pounding of the seas in the terrific gale.

Information of interest is contained throughout the pamphlet, reference being made to many places in the South frequented by hunters who find game in abundance.

There was an abundant supply of country produce in market this morning, but prices were about as firm as those prevailing last Saturday. Some poultry was offered at high prices. Fresh pork was unchanged. Some eggs were sold at 32 cents a dozen, but a few country people wanted 35. Rabbits were offered at 25 a 30 cents each.

The rule requiring the Washington Herald to show cause why a temporary injunction should not be granted restraining the newspaper from using the word "Herald" in its name was yesterday dismissed by Chief Justice Clabaugh. of the Supreme Court of the District, who ordered Alexander J. Wedderburn, jr., to file an undertaking to secure the payment of costs in the suit. Mr. Wedderburn, who filed the suit, claims he has a prior right to the name "Herald." Going Housekeeping?

If so, you can hardly get along without spoons, knives and forks. The silver-plated are without a doubt the most economical in the end. They wear longer, look better and cost very little more than the ordinary kinds. We can even supply silver-plated knives with steel blades.

Your sideboard is hardly complete without a silver set. Silver cake and fruit baskets should also be placed there.

A candelabra with will brighten the table considerably. After the spread has been cleared off a silver fern dish should be placed on the table.

The necessary things in cut-glass are the decanter, the berry bowl and the celery dish. In a great many homes the ice cream is served on cut glass plates.

On your dresser place a traveling alarm clock and a sterling silver or silver-plated toilet set, also a hat and clothes brush.

You will find plenty use of a number of small silver-plated trays. One has always so many trinkets to take care of.

There should be a jewel case on the dresser, if only for appearance sake. Over night it is a good place to keep the watch and Z—K Gold Chain.

Is Girard a Bankrupt?

As a culmination of the much-talked-of Girard failure and the attachments against his propertyein Stafford and elsewhere, this paper is informed by a law firm in Fredericksburg that it is reported to them from Washington that Girard has filed a voluntary petition in bankruptcy. If such is the case the various suits and attachments will abate and the property attached will go into the hands of the trustee of bankruptcy as soon as the latter is named by the United States court. Girard did a most extensive business in this section, buying railroad ties on a large scale, and was looked upon as responsible financially and otherwise until a few months ago, when legal proceedings were instituted against him in the Circuit Court of Stafford. Others immediately followed, and it is said that nearly every lawyer in this city, several in Washington and two in Alexandria, are now interested in these matters as counsel for various parties. If Girard is successful in the bankruptcy proceedings the creditors will probably come out at the short end of the horn, as experience teaches that very little is ever received from the distribution of assets. The Girard matter will come up in some form at the next term of Stafford court, Nov. 12.—[Fredericksburg Lance.

Charged with Fraud.

Charles Whitney Norton, said to have swindled people in all parts of the United States out of bonds and securities amounting to $3,000,000, was arrested on a Federal warrant yesterday afternoon, in Chicago, and taken to the county jail. He will be charged with using the mails to defraud.

It is claimed by the officers that Norton would obtain stock from any person who would trust him, and agreed to sell it in the market. He might, the police declare, sell the stock and he might retain it, but the result to the person owning the stock was the same. They would receive no money from Norton, nor would the stock be returned to them.

Norton was first taken into custody by the police three days ago, and they held him without preferring any charge against him until a search could be made for securities said to be held by him.

In his room was found bonds, stocks, abstracts of land titles, first mortgages, and other negotiable papers, the greater part of which is thought to be genuine and worth almost $2,000,000. Other papers were found, valued on their face at about $1,000,000 more, but their value is doubtful. It is claimed that Norton, by selling and trading these securities, has made many thousands of dollars.
